Agenda Item: Development of Dialogue on Terminology

Committee Goal Being Addressed: Develop Dialogues

Discussion:

We discussed the idea of making this an observed dialogue, a format that we have not previously used. We will plan on an audience of 50-100 with 10-12 participants. There will be some limited opportunities for the audience to contribute as well. We would hope to establish some consensus on terminology, but will not push this agenda. We will attempt to invite a well rounded and experienced group to take part in the dialogue. We will try to get this done before Thanksgiving, tentatively Nov 16 in the evening.
