**Agenda Item: Mercy BH Mental Health-Addiction Dialogue
Committee Goal Being Addressed: Develop Dialogues**

Discussion:

Saya and Stephanie reported on the planning process at Mercy BH. They are now hoping to schedule this for a Friday in November. They are planning to have about 30 participants, and we suggested a split of 50/50 for providers and consumers, and the same for addiction vs mental health backgrounds. We discussed some of the questions that might be posed in the dialogues to stimulate the discussion. Although this dialogue is not specifically focused on the relationship between provider and consumer, it will likely still be a significant part of the discussion. Once a date is set, facilitators will be recruited.

Action Items:

1. Continue planning, set date, recruit facilitators.

Person Responsible

Murtaugh, Krebs

Target Date

**Agenda Item: Development of Dialogue on Terminology/Labels
Committee Goal Being Addressed: Develop Dialogues**

Discussion:

We continued the discussion of this dialogue, considering how it might be arranged and how participants would be recruited. We agreed that to this well, some time would be required, and so we agreed to schedule this after the first of the year, rather than in November. A panel of 10-12 would be selected that would represent a variety of views and which would create a lively discussion. We discussed sending a general invitation followed by a more targeted recruitment process if needed. Saya has looked into a couple of possible venues, St. Paul's and St. Delberts(?) among them. We agreed that an auditorium type setting would be optimal. There was also an extended discussion of the best time to begin the dialogue, and there was some consensus that an early hour of about 4:30 would probably be best. There was also some discussion of food and the best time to serve it. There was some agreement that we should avoid messy foods, i.e spaghetti, and go for something that would require little clean up.
