

Consumer Provider Collaborative Meeting – 2/27/07

I am just doing a brief summary of our last meeting, which was on February 27. Sorry about the delay. There were only four of us who were able to attend, myself, Sarah, Evelyn and Kathy. We even had lunch, compliments of Community Care!

We spent some time with Kathy, discussing the next Trialogue that she is planning. It is tentatively scheduled for Monday, May 14th. We will be needing six facilitators for this dialogue which will take place in the early evening. Please try to make some time for this.

The other major topic was the Terminology Dialogue that we postponed. Sarah did some good work and got Community Care interested in it, and so it will take place on 4/30 in conjunction with a reception the night before the conference. That would be a Monday night at the William Penn Hotel. They will be providing all the refreshments and being doing all the logistical work. What we need to do is to make sure that we have our panel and facilitators in place. That lightens our burden considerably.

We will contact the provider participants, Evelyn and Sarah will be contacting the consumer participants. Sarah will coordinate with Virginia for registration etc.

Since there were few of us we were able to adjourn a bit early, the next meeting will be March 20, at 11:00 AM.
